

## BOCA RATON FIRE RESCUE SERVICES DEPARTMENT

### FIRE FIGHTER CANDIDATE PHYSICAL ABILITY TEST

#### DESCRIPTION OF REQUIRED MEDICAL RELEASE

A medical doctor must review the attached description of the Physical Ability Test and the orientation and preparation guide. If the doctor approves your participation in the CPAT, a letter must be prepared on the physician's stationary signed and dated by the physician. This letter must include the following statement:

**"I have reviewed the description of the Boca Raton Fire Rescue Services Department's Candidate Physical Ability Test and the preparation and orientation program to be administered to all fire fighter candidates currently considered for employment and hereby certify that First Name, Last Name, SS# can safely perform all aspects of the Candidate Physical Ability Test, preparation, and orientation, and the actual test."**

The candidate will be required to present an original, signed doctors release and the attached "RELEASE FROM LIABILITY" form for both the actual Candidate Physical Ability Test and the preparation and orientation program, if enrolled.

**Note: You will not be permitted to participate in the Candidate Physical Ability Test unless the releases are presented at the date and time of your scheduled appointment.**

**Failure to follow these strict guidelines will be cause for immediate elimination from the Fire Fighter selection process.**
